

GREATER KOLKATA COLLEGE OF ENGINEERING AND MANAGEMENT

ORIENTATION PROGRAM FOR THE NEW BATCH OF 2017

1st year B.Tech. and Diploma students, admitted in 2017-2018 session, were heartily welcomed into the GKCEM family by conducting an "**Orientation Program**" spread over 3 days as per the following schedule:

Date	Pre-Lunch Session	Post-Lunch Session
31/7/2017	ECE Deptt.	EE Deptt.
1/8/2017	Basic Science & Hum Deptt.	CSE Deptt.
2/8/2017	ME Deptt.	CE Deptt.

The primary purpose of the program was to apprise the new entrants about the curricular and co-curricular processes in place at the college. Each session was inaugurated by the respective Head of the Department who, alongwith departmental faculty members, welcomed the students. This was followed by a powerpoint presentation on the course curriculum, infrastructure, evaluation system and other related matters. Students actively participated in an interactive question-answer session to clear any doubts. Thereafter, students were taken for a round of all the laboratories in the respective departments.

The new students showed great interest and enthusiasm in the proceedings. Few snaps are appended below:
